WHAT TO BRING ON PHOTOGRAPHY WORKSHOPS & PHOTO WALKS:

- You will need your camera. Please ensure it has fresh/fully charged batteries, bring along your charger and/or a spare battery if you have one.
- Please bring your camera manual if you have a printed copy. If you bring DSLR lenses, a hot-shoe mounted flash or other accessories, please bring the instruction manual too.
- Memory cards - it is essential that you start the day with an empty, preferably newly formatted, memory card. We will use card readers to transfer your images to our computers, but in the event that we are not able to do this successfully, please bring your camera to computer data cable too.
- A camera bag is useful for protecting your camera and equipment when outdoors, and a transparent plastic bag and some sticky tape make a good, temporary waterproof cover for your camera and an umbrella will protect your equipment and you in wet weather.
- Please bring a tripod if you have one
- Dress in warm, comfortable clothing for outdoor sessions. A waterproof/ windproof top will be useful. Comfortable but strong footwear is advised for photographing outdoors.
