WHAT TO BRING ON PHOTOGRAPHY WORKSHOPS:

- You will need your camera. Ensure it has fresh/fully charged batteries and a spare battery if you have one.
- Please bring your camera manual if you have a print copy. If you bring DSLR lenses or other accessories, please bring the instruction manual too. If you don't have a copy of your manual, please don't print one out we will use Google if we need to.
- Memory card - it is essential that you start the day with an **empty**, preferably newly formatted, memory card. We will use card readers to transfer your images to our computers, but in the event that we are not able to do this successfully, please bring your camera to computer data cable too.
- A camera bag is useful for protecting your camera and equipment when outdoors, and a transparent plastic bag and some sticky tape make a good, temporary waterproof cover for your camera and an umbrella will protect your equipment and you in wet weather.
- Dress in warm, comfortable clothing for outdoor sessions. A waterproof/ windproof top will be useful. Comfortable but strong footwear is advised for photographing outdoors.
- If you are borrowing a loan camera, please bring a memory stick so that we can transfer your images on to this to take home with you.
