#### WHAT TO BRING ON PHOTOGRAPHY WORKSHOPS & PHOTO WALKS:

- You will need your camera. Ensure it has fresh/fully charged batteries and a spare battery if you have one.
- Please bring your camera manual if you have a print copy. Please Check carefully as sometimes the printed one you receive only contains basic facts
- Memory card - it is essential that you start the day with an empty, preferably newly formatted, memory card. We will use card readers to transfer your images to our computers, but if we are not able to do this successfully, please bring your camera to computer data cable too.
- Please set your camera to shoot in jpeg (or raw&jpeg), as RAW images can make downloading rather slow
- A camera bag is useful for protecting your camera and equipment when outdoors, and a transparent plastic bag and some sticky tape make a good, temporary waterproof cover for your camera and an umbrella will protect your equipment and you in wet weather.
- Bring a tripod if you have one (essential for Close-up & Macro workshops and Water & Movement workshops - if you don't have one please get in touch as we have loan tripods, free of charge).
- Dress in warm, comfortable clothing for outdoor sessions. A waterproof/ windproof top will be useful. Comfortable but strong footwear is advised for photographing outdoors.
- In addition, it can be quite muddy while out taking photographs, so for the sake of the venue's staff, please bring a change of shoes.
