PHOTOGRAPHY WORKSHOPS

WHAT TO BRING ON WEEKEND PHOTOGRAPHY WORKSHOPS:

- Warm, waterproof clothing for the outdoor sessions.
- Sturdy footwear
- Umbrella
- Some people like to bring garden kneeling mats for getting down low and protecting knees!
- Camera + manual (it's worth checking your manual – sometimes the printed one you receive only contains basic facts and there's a fully detailed manual on the CD that came with the camera)
- Lenses – bring any lenses that you have also bring any lens hoods that you have with you
- Memory cards (I will use card readers to transfer your images to my computer, but in the event that I am not able to do this successfully, please bring your camera to computer data cable too)
- Batteries + charger + spare batteries – MOST IMPORTANT ➤➤ Tripod (I will have 2 tripods available for loan). If you have a monopod rather than a tripod, this could also be very useful.
- Camera bag (useful for protecting camera and equipment when outdoors, a transparent plastic bag and sticky tape make a temporary waterproof cover)
- Cable / remote release (if you have one) ➤➤ Polarising, Neutral density, Neutral density graduated filters are all optional
- extras if you have them. ➤➤ Thermos flask / Drinks bottle ➤➤ Rucksack for walks (optional). Notebook, Pens, Pencil
