WHAT TO BRING ON PHOTOGRAPHY WORKSHOPS & PHOTO WALKS:

- You will need your camera. Ensure it has fresh/fully charged batteries and a spare battery is recommended.
- It is useful to bring your camera instruction manual if you have one. If you bring SLR lenses, a hot-shoe mounted flash or other accessories, please bring the instruction manual too.
- Memory card - it is essential that you start the day with an empty, preferably newly formatted, memory card. We will use card readers to transfer your images to our computers, but in the event that we are not able to do this successfully, please bring your camera to computer data cable too.
- A full set of PDF course notes will be emailed to you after the course so you may like to bring a pen and paper to make a note or two of your own.
- For SLR users, please don't set your camera to shoot RAW images, as they will make downloading too slow.
- A camera bag is useful for protecting your camera and equipment when outdoors, and a transparent plastic bag and rubber band make a good, temporary waterproof cover for your camera and an umbrella will protect your equipment and you in wet weather.
- A tripod (full height) if you have one is essential for landscape, Low-Light & Fill-In Flash and Water & Movement workshops). You do not need a tripod for Explore 1.
- Dress in warm, comfortable clothing for outdoor sessions. A waterproof/ windproof top will be useful. Comfortable but strong footwear is advised for photographing outdoors, plus a garden kneeler or similar for getting low for some photos. If it is very muddy bring boots.
